

Ryan Gao

Brooklyn, NY | (917) 605-5115 | rsg8583@nyu.edu | LinkedIn | GitHub | Portfolio

Education

New York University

Expected May 2028

Bachelor of Science in Computer Science — Machine Learning & AI Track

Manhasset Secondary School

Sep. 2020 – Jun. 2024

Advanced Regents Diploma with Advanced Designation

Mastery in Mathematics and Science; AP Scholar with Distinction

Technical Skills

Programming Languages: Python, Java, C++, JavaScript, TypeScript, SQL, HTML, CSS

Frameworks & Libraries: React, Next.js, Tailwind CSS, p5.js, Vitest, Testing Library

Databases & Tools: PostgreSQL, Prisma, Git, OpenAI API, Arduino IDE, Microsoft Excel

Experience

Singh Ventures — Web Developer Intern

Jun. 2026 – Aug. 2026

- Built responsive property pages displaying listing images, descriptions, pricing, and contact information.
- Developed reusable navigation and inquiry components using HTML, CSS, and JavaScript.
- Worked directly with company leadership to update listings and improve the mobile browsing experience.

Projects

PantryPal — Full-Stack AI Meal Planning Web App

2026

- Built a full-stack meal-planning app with Next.js, React, TypeScript, Tailwind CSS, and PostgreSQL.
- Integrated OpenAI API recommendations based on pantry inventory, dietary preferences, and meal history.
- Implemented user-specific data persistence with Prisma and regression tests using Vitest and Testing Library.

Circuitry and Embedded Programming — Automated Door Opener

Sep. 2025 – Dec. 2025

- Led a three-person team in designing and implementing an automated door opener, delivering a functional electromechanical prototype.
- Designed and assembled circuitry to control motorized door operation and integrate hardware components.
- Led software development using Arduino IDE, implementing button-based inputs for precise and responsive motor control.
- Diagnosed hardware and software issues and optimized power consumption, reliability, and system safety through iterative testing.

Interactive Plastic Pollution Simulation

Jan. 2025 – May 2025

- Developed an interactive web simulation using p5.js, JavaScript, HTML, and CSS to visualize the growth of ocean plastic pollution.
- Implemented a dynamic counter modeling plastic accumulation over time to communicate the scale of environmental waste.
- Presented the project at the NYU Shanghai Interactive Media Arts Show to faculty, students, and peers.

Leadership

Treasurer — Lambda Chi Alpha Fraternity

Sep. 2026 – Present

- Manage a \$10,000+ chapter budget supporting operational expenses for 20+ members.
- Use Excel to calculate chapter expenses and member dues based on projected spending, national fees, and organizational costs.
- Collect and track member dues, maintain financial records, and monitor outstanding balances.
